Subject: RE: questions about sequence search request for 10/055,106

Sorry for the confusion.

I want (i) SEQ ID NO 1; (ii) NA encoding SEQ ID NO 2; and (iii) 12 mer oligo search for SEQ ID NO 1.

Thanks.

Examiner Shukla,

In this request you are asking for search of:

"SEQ ID NO 1
Nucleic acid encoding of SEQ ID NO 2
12mer Oligosearch"

Does this mean you want these two seq ids searched as 12mers **only** or do you want the 12mer search done **in addition to** the standard searches of the 2 seqids?
Thank you.
